“This year, we’ve seen the cryptocurrency market hit \$2.5 trillion, leading payment providers recognize and settle in crypto, large institutional investors launch services and increase their digital asset portfolios, the first Bitcoin ETF in North America, DeFi increase trading volume and new users to all-time-highs, bank-breaking star-studded NFTs, and a renewed focus on crypto regulation from global policymakers,” said Michael Terpin, CoinAgenda conference organizer. “CoinAgenda has been there for it all gathering the bright minds behind these milestones. We are looking forward to hosting our in-person events again safely and to continue driving blockchain forward.”

Now in its eighth year, each CoinAgenda event will begin with an iconic opening party on the first day. Main sessions for each CoinAgenda conference will take place on the second and third day. Topics on the second day will focus on new blockchain categories, DeFi, NFTs, security token offerings, legal, regulatory and jurisdictional issues involved with

starting and investing in blockchain companies, and BitAngels pitches of up to 30 vetted blockchain startups (a mix of angel and VC investments as well as tokens trading on exchanges) pitching in a Demo Day environment.

The third day will discuss investing, trading and digital currency funds, as well as spotlight panels and keynotes on exchanges, IEOs and family offices. CoinAgenda Europe will also feature a summit on Public Companies and Blockchain, and CoinAgenda Caribbean will include a summit on Blockchain and Sustainability.

Networking for all attendees will be available during the second day's famed Legendary Dinner (featuring top-shelf cuisine) and during the intimate closing party on the third day. Attendees are invited to meet, mingle, and get to know the top industry CEOs, fund managers and visionaries propelling the industry forward.
