

Ethics Evolved: An International Perspective on Copying in the Networked Age (PRESENTATION)

Editor's Note: This work, presented by [Aram Sinnreich](#), Associate Professor at American University, is an analysis of data from surveys from 2006-2015 covering the awareness, consumption, engagement, opinions, ethics and laws surrounding "configurable" culture, such as mashups, remixes, machinima, memes, mods, and anime music videos.
