About the Event

NOLA MusicTech brings together visionaries in the evolving music/business/technology ecosystem, along with the best and brightest entrepreneurs, investors, musicians, journalists, developers, service providers, and organizations who work with them at the convergence of culture and commerce. We meet to do

business and discuss, in a proactive, conducive to dealmaking environment. Our aim is to draw music and technology businesses and jobs to New Orleans, to funnel money and opportunities to Louisiana Musicians.

This event will be held remotely online and all tickets are good for remote access.

Tickets are non-refundable though transferable to someone else through Eventbrite.

More info can be found at <https://www.nolamusictech.com>

Thank you so much for keeping our MusicTech community together through these trying times!
